MARRIAGE DEFENSE

Heterosexual unions one of country's absolutes

My thanks to state Rep. Lynn Hefley for standing up for the Federal Marriage Amendment. The fact that our nation is even having to debate the issue of marriage is heartbreaking. A handful of activist judges are attacking the foundations of our country against the wishes of an overwhelmingly large majority of Americans. Recently, judges have attacked the Pledge of Allegiance, the phrase "under God" in the Pledge, the Ten Commandments, prayer and now marriage.

Since the birth of our nation we have held to certain absolutes. It has always been wrong to lie, cheat, steal, commit adultery or murder. Another absolute is that marriage is between one man and one woman. Rep Hefley is exactly right when she says if we don't take a stand and step forward, our country is going to probably fall just like Rome did.

We must not allow anyone to redefine or undermine marriage. To those who disagree, I have one question for you: Can you find Sodom or Gomorrah on any map today?

It was hard to tell there was a contested race for the Colorado House District 16 seat at the Republican County Assembly on Saturday.

There wasn't a single "Bill Jambura" sign.

In fact, there was no Bill Jambura.

It's no wonder candidate Larry Liston grabbed 96.9 percent of the 242 delegates' votes Saturday.
